DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 24 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by Matt, Sr. 3,295,847. Matt teaches first 50 and second 52 pedals coupled to the housing and rotatable about respective hinges 58, 60. The pedals and housing are relatively movable between an open configuration shown in figure 3 and a collapsed configuration shown in figure 1. Matt would appear to anticipate the invention as claimed.
